

Formula SAE Italy, Formula Electric Italy & Formula Driverless

Dear Teams, Sponsors, Partners and Friends,

since the moment the decision to cancel the 2020 Formula SAE Italy, Formula Electric Italy & Formula Driverless has been taken, it was opened a continuous communication with all European events monitoring the current situation closely. Since the large majority of the European events decided to cancel their competitions, the planning for 2021 already started.

Following few updates and few next steps to take:

Registration fees:

All 2020 registered teams will have a choice to make: receiving back the 100% of the fee or keep their slot for the 2021 event. All the details for the refunding process will be released as soon as possible. Teams' final decisions can also be postponed approximately until the end of 2020, in any case until the moment in which the final 2021 European events calendar will be officialized.

Rules 2021/Submissions:

The published rules for 2020 will also apply for the competition in 2021. All rules requests and the respective answers of 2020 are valid for the 2021 event. Of course cars designed and (partially) realized according to the 2020 Rules will be accepted in 2021. Please note that **all the documents already submitted in 2020 will need to be submitted again (the same version or a new one) according to the 2021 deadlines, that will be published in the next months.**

Communication will follow about extending the period of student status of currently seven months mentioned in rule A.D.3.1.2 in order to make official participation of team members who worked extensively on this year's vehicle possible in 2021. We will give you all the details soon.

The organizing committee of Formula SAE Italy, Formula Electric Italy & Formula Driverless is at 2020 registered teams' disposal for giving advice and answering questions in the next months. Feel free to contact us.

Please, continue to follow all the updates on Formula SAE Italy website and social media, in order to keep informed about next initiatives we are going to plan for the future months.

Thank you for supporting us in our tough decision of cancelling 2020 edition. As already communicated in the previous statement, now the priority is respecting the rules on containment of COVID-19 outbreak, so stay home and stay healthy!
