

Formula SAE Italy 2021- Deep Dive Topics

Dear Formula Student Team,

We are happy you will be part of Business Presentation Stage 3.

We are looking forward to seeing your proposal in front of our board members, but we have an additional item we would like you to develop and share:

“A stable know-how is one of the success keys for every company. But the importance of capturing the knowledge of skilled employees has increased with the automotive transformation in progress. What is your plan to retain and develop your core people?”

Please include this topic in your Stage 3 Business Plan Presentation to be held on September 27th and 28th 2021

Yours sincerely
Valentina Temporelli & Enrico Rebaudo
