FORMULA SAE ITALY 2022 - BUSINESS PRESENTATION EVENT

STAGE 3 - Deep Dive Topics

Dear Teams,

We are happy you will be part of Business Presentation Stage 3.

We are looking forward to seeing your proposal in front of our board members, but we have an additional item we would like you to develop and share.

You know that we are in the middle of an unforeseen semiconductor shortfall crisis, which is heavily affecting the worldwide economy and especially the automotive market. This crisis will definitely change the business model of the electronic industry and of their customers.

How do you believe this transformation will influence your project?

Please include this topic in your Stage 3 Business Plan Presentation to be held on July 14th and 15th 2022

Yours sincerely

Valentina Temporelli & Enrico Rebaudo
