

Formula ATA Italy & Formula Electric Italy

Dear Formula Student Team,

We hope you will be part of Business Presentation Stage 2.

And in preparation of this Stage, we have for you an additional item to be developed and shared.

In the last few years, the AI is playing a significantly increasing role in every business activity. How have you used so far in your business the AI and how would you expect to impact the future of your company? Which are the main risks and opportunities you have identified?

Please include this topic in your Stage 2 Business Plan Presentation to be held on September 3rd and 4th 2026

Yours sincerely

Ilaria Santantonio and Enrico Rebaudo
